Notes First Step is to measure the perimeter and draw a simple drawing to know your quantities of materials.

Next step is to get a quote for the materials you need from SIRS-E and other necessary vendors.

This List of Materials here was created as a sample in reference to the installation done.

Each installation will be different, and you may need more or less of each material.

If you need a customized drawing and/or list of materials, please contact us at 956-522-2006 or email us at contact@sirs-e.com
