

## Aviation Interior LED Lighting

SIRS-E® RGBW LED Strip AcuHue™ (4000K) CV on private jets! Installation on aircraft floor aisle, ceiling of the aircraft, and bottle/cup holder. SIRS-E® high quality RGBW LED strip AcuHue™ CV (4000K) utilizes four LED diodes (red, green, blue, white – 4000K) which are mixed via a control method of your choice to potentially produce over a billion color rendering options. This flexible LED strip is available in 12V and 24V models, cuttable, and mountable utilizing 3M VHB adhesive.

*Project by Elliott Aviation*
