

## Resorts World Las Vegas

SIRS-E® DMX RGBW LED Strip 4 In 1 Direct DMX512A Pixel-by-Pixel Control installed at the Resorts World Theatre entrance, Zouk Nightclub entrance, and at the main lobby entrance.

SIRS-E® Direct DMX RGBW LED strip utilizes direct DMX512A signal to control a pixel by pixel programmable flexible tape light via the software of your choosing. The red, green, blue and white (5500K) diodes can be mixed to potentially produce over a billion color rendering options. This model requires 5V power from both ends, is cuttable every LED, and mountable using 3M adhesive tape. 5-pin XLR connector included with every reel.

*Project by Magnus Metals / Marquis Johnson*

## Product used for this project

Direct DMX RGBW UL LED Strip  
Pixel by Pixel Control 2.0

SKU# DMX-5RGBWN-32XX
