

The Cheetah – Atlanta

Night Club LED Lighting! Creative LED lighting installation.

SIRS-E® high quality RGBW LED strip AcuHue™ CV (2700K) utilizes four LED diodes (red, green, blue, white – 2700K) which are mixed via a control method of your choice to potentially produce over a billion color rendering options. This flexible LED strip is available in 12V and 24V models, cuttable, and mountable utilizing 3M VHB adhesive.
