ENTTEC

S-PLAY MINI – Datasheet

Create, Record, Edit and Play up to 2 Universes light shows integrating with 3rd party hardware and system in a compact 4 module DIN rail mount form factor.

ENTTEC's S-PLAY MINI is a robust and compact show recorder and playback controller that streamlines your light show by seamlessly integrating external hardware, enabling you to achieve sophisticated lighting control with ease.

S-PLAY MINI generates a maximum of 16 light Static/Dynamic/Effect Cues by recording 2 universes of Art-Net/sACN sources or 1 complete universe via DMX port live recording. Alternatively, you have the option to use the built-in pixel effect generator offering an easy-to-use tool for creating a gradient Effect Cue in just a matter of minutes.

The S-PLAY MINI allows flexibility to fully integrate external devices into the installation that receive Triggers or automate Events through contact closures, Art-Net, sACN, DMX, UDP or OSC.

Drag and drop within S-PLAY MINI's timelines system, users are allowed to design up to 8 Playlists using created Cues, Events and Triggers as building blocks intuitively. Control the number of play counts, priority, fade times and master intensities to fine-tune your playlists.

Playback on power up with preferred loop times or choose to trigger the playlists with Custom Interface or external Triggers in a different fashion to allow up to 8 Playlists playback simultaneously overlapping and blending with each other with different groups and priorities.

Features

- Supports recording & playback up to 2 Universes of eDMX (Art-Net and sACN) or 1 full universe physical DMX.
- Records cues from Art-Net, sACN, DMX sources with the added convenience of a DMX value monitor.
- Creates gradient Effect Cues using the on-board effect generator.
- In-built web-based design engine for recording Cues, editing Events and Triggers, and managing Playlist playback, all through a user-friendly interface.
- Flexibility to create up to 8 Playlists, comprising a maximum of 16 Cues, including Static, Dynamic, and Effect Cues.
- Sends up to 16 automated Events from options: Art-Net, sACN, DMX, Relays, UDP & OSC.
- Supports up to 16 Triggers from options: Art-Net, sACN, DMX, Digital Inputs, UDP, OSC and Trigger button on the device.
- Creates user-friendly Custom Interface.
- Playlists is set to automatically start on power up and playback according to your desired loop times.

DATASHEET

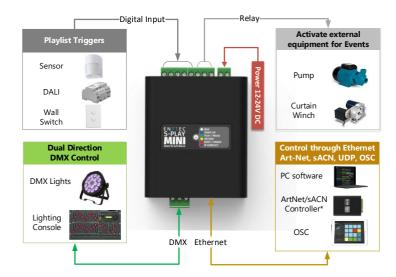

Specification

Connectors	1x Power Input	
	(2-Pin Phoenix)	
	1x Ethernet (RJ45)	
	1x Relay	
	(3-Pin Phoenix)	
	4x Digital Input	
	(5-Pin Phoenix)	
	1x Bi-directional DMX Port (3-Pin Phoenix)	
IP rating	IP20	
LED indicators	Forward facing LED indicator	
LLD IIIUICACUIS	Network link / activity (integrated into RJ45 ports)	
Number of Universes & Input / Output Protocol	1U: USITT DMX512-A	
	2U: Art-Net & sACN	
Max Refresh Rate (FPS)	40 FPS	
Input Voltage	12-24V DC	
Max. Power Draw	3W	
Internal Storage	1GB	
Expandable storage	No	
Cooling Method	Convection	
Environmental	0°C to 50°C	
operating temperature	32°F to 122°F	
Environmental	0 to 95%	
operating humidity	(non-condensing)	
Body material	ABS Plastic	
Mounting options	Surface & TS35 DIN Rail mount	
Unit dimensions	100.5*72.25*34 mm	
Unit weight	0.83kg / 0.18lbs	
Shipping dimensions	160*140*40 mm	
Shipping weight	0.16kg / 0.35lbs	
Warranty	3-year return to base manufacturer warranty	

Box Contents

- S-PLAY MINI
- 1x Din mounting clip & screws

Application Diagram

Safety

- Do not expose this device to rain or moisture, doing so will void the warranty.
- Make all the connections before you connect power.
- Do not remove the cover, there are no user serviceable components inside.
- Never plug this unit in to a dimmer pack.
- Ensure proper shield connections.
- Mount this unit in an area that will allow air flow allow 150mm (6") space.
- Never connect 0V to electrical Earth.
