
Scale 1:1

0 20mm 40mm

Instructions for surface mounting:

This template can be used to locate the drill holes required for the 8” universal mounting plate (UMP 8).

1. Print the document on A4 paper - do NOT scale.
2. Once printed, acurately measure one of the stated distances with a ruler using the centre lines. This will confirm the printout is the correct scale.
3. Drill holes in surface using the template.
